

What is the Interagent Listing Referral Program?

The Interagent Listing Referral Program is specifically for listings. When your 55 places.com or neighborhoods.com buyer lead is in the process of purchasing a home through you and they want or need to sell their current residence, we will connect them with another Partner Agent to help them sell their home.

If your buyer lead decides *not* to purchase a home with you and instead wants to consider purchasing in another city or state, per the terms of our referral agreement, the lead is to be directed back to the company via PartnerAgentSupport.com so another Partner Agent can help them.

What are the Benefits?

- **Compensation**: You will receive a referral fee for referring your buyer to another Partner Agent as a listing opportunity. We will work to find a 55places.com or neighborhoods.com Partner Agent to help sell their home. Upon a successful closing, Neighborhoods.com will send you 35%* of the referral fee received by the company. (*If the referral fee received is less than 35%, the company will send you a referral fee equal to the percentage received.)
- **Fast and Easy:** Track your referrals by updating two fields on the lead record in Huddle. Simply check a box to let us know that you have a listing referral, tell us where it is, and save.
- **Seamless Process**: You will be notified As soon as your buyer lead is assigned to another Partner Agent as a listing lead. That way, you can communicate with the listing agent throughout the sale, making it a smooth transition for you and your client.
- **Listing Updates**: When you refer your buyer lead, you will be copied on email notifications so you can see when the listing is active, under contract, and closed.
